PROFESSIONAL SUMMARY

Detail-oriented AI Data Analyst with hands-on internship experience turning raw data into actionable insights using Python, SQL, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis, and statistical analysis, with working knowledge of machine learning and generative AI/LLM tools to speed up analysis and reporting. Strong analytical thinking and communication skills, with a passion for using data and AI to solve real-world business problems.

SKILLS

Data Analysis & Visualization: Data Cleaning & Preprocessing, Exploratory Data Analysis (EDA), Statistical Analysis, Microsoft Excel, Power BI, Matplotlib, Seaborn

Programming & Data: Python, SQL, Pandas, NumPy

Machine Learning & AI: Machine Learning, Deep Learning, Scikit-learn, TensorFlow, PyTorch, Model Training & Evaluation

Generative AI & NLP: Generative AI & LLM Fundamentals, Prompt Engineering, Natural Language Processing (NLP), RAG, LangChain, Hugging Face, OpenAI API, AI-Assisted Data Analysis

Tools & Platforms: Git & GitHub, Jupyter Notebook, REST APIs, FastAPI, Docker (Basics)

Soft Skills: Analytical Thinking, Problem Solving, Attention to Detail, Communication, Teamwork, Critical Thinking

EXPERIENCE

Wayeva Innovation Pvt Ltd | Bengaluru, Karnataka, India

Artificial Intelligence Intern | 03/2026 - 06/2026

Developed a strong foundation in Artificial Intelligence and Machine Learning concepts and their real-world applications.

Worked hands-on with Python, data preprocessing, and data analysis to prepare clean, model-ready datasets.

Built, trained, and evaluated machine learning models using Python libraries such as Scikit-learn.

Explored Generative AI, Large Language Models (LLMs), and prompt engineering to build AI-based applications.

Applied AI concepts to practical problems, building and testing basic AI solutions while strengthening problem-solving and technical skills.

Inambigos Foundation | Remote

AI Data Analyst | 1 month

Collected, cleaned, and preprocessed raw datasets using Python (Pandas, NumPy) and Excel to ensure accuracy and consistency.

Performed exploratory data analysis (EDA) and statistical analysis to uncover trends, patterns, and actionable insights.

Wrote SQL queries to extract and organize data, and built dashboards and reports in Power BI to present key findings.

Used AI-assisted tools and LLM prompts to speed up data analysis, summarization, and reporting.

Worked remotely with the team, sharing progress updates and clearly communicating insights to non-technical stakeholders.

PROJECTS

Used Car Price Analysis

Data Cleaning & Predictive Modeling | Python, Pandas, Scikit-learn, Power BI

Collected and cleaned a dataset of 5,000+ used car records, handling missing values and outliers to ensure data quality.

Performed comprehensive EDA to identify key factors influencing car prices (age, mileage, condition, brand).

Built and evaluated machine learning models (Linear Regression, Random Forest) to predict car prices with 85% accuracy.

Created interactive Power BI dashboards visualizing price trends, brand comparisons, and depreciation patterns.

Delivered actionable insights for dealers on pricing strategies and market positioning.

YouTube Video Analytics & Trend Analysis

Data Collection & Statistical Analysis | Python, SQL, Pandas, Matplotlib, Seaborn

Extracted YouTube data using REST APIs and SQL to analyze 2,000+ videos across multiple channels and categories.

Performed statistical analysis to identify correlation between video duration, upload frequency, and engagement metrics.

Uncovered trending topics and content patterns, revealing that educational content with 8-12 minute duration had highest engagement.

Visualized findings using Matplotlib and Seaborn, creating compelling charts for audience retention vs. video length.

Developed recommendations for content creators on optimal video length, posting frequency, and trending topics.

EDUCATION & TRAINING

Kuppam Degree College | Kuppam, Andhra Pradesh, India

Bachelor of Computer Applications in Computer Applications | Expected in 05/2027
